ABOUT ME

An ambitious front-end developer with high interest in modern technologies, besides that an avid escape room enthusiast with a passion for cooking.

I am constantly learning and improving to become a great front-end developer. Being a self-taught developer with no IT academic background besides 800+ hours spent on Udemy, YouTube, FreeCodeCamp exercises has been the greatest challenge in my life yet.

RELATED EXPERIENCE - PET PROJECTS

Fully functional React.js e-commerce web application

Project based, I have managed to recreate a fully functional and scalable e-commerce platform with Firebase Authentication, Firestore database and Stripe payment. Included Redux as state management, custom hooks, and ContextAPI.
